

## **EnRiMa DSS Information Session at the “European projects on energy efficiency in buildings” Symposium**

### **PRESS RELEASE**

**25/02/2014**

On February 27th the EnRiMa DSS System will be presented during the “European projects on energy efficiency in buildings” symposium in Oviedo, Spain.

The DSS information session is intended for local governments, agencies in charge of housing and public space, the commercial building sector, building managers and other potential DSS users. The session is organized by EDP with the support of *FAEN (Asturian Energy Foundation)* and includes an opening by a member of the Government of the Principality of Asturias and a policy introduction by the FAEN manager.

The features and the possible results which can be obtained using the DSS System developed within the EnRiMa project will be illustrated in the framework of this event that aims to present different aspects of the Energy efficiency policy in Europe. During the event, modalities of improving Energy efficiency in hotels will be discussed and there will also be a presentation from the Life project Autonomous Office.

EnRiMa (Energy Efficiency and Risk Management in Public Buildings) is a project funded by the European Commission under the 7<sup>th</sup> Framework Programme (FP7), launched on the 1<sup>st</sup> October 2010 that will run until April 2014. The project aims at developing a decision-support system (DSS) that allows operators to control energy flows in energy-efficient buildings and areas of public use, and which will be customised for the target stakeholders to enable its commercialisation.

The EnRiMa consortium, led by the University of Stockholm, includes nine institutions from six European countries: University College London (UK), International Institute for Applied Systems Analysis - IIASA (Austria), Universidad Rey Juan Carlos (Spain), Centre for Energy and Innovative Technologies - CET (Austria), Minerva Consulting and Communication (Belgium), SINTEF Group (Norway), Tecnalia Research and Innovation (Spain), and Hidrocantábrico Energía (Spain).
